

December 17, 2009

Dear Valued Customer:

This letter is to inform you that recycling and disposal rates at the Shoreway Recycling and Disposal Center will increase effective **Friday, January 1, 2010**. Please refer to the back page of this letter for the new rates.

The rate adjustments were approved by the Board of Directors of the South Bayside Waste Management Authority (SBWMA) on November 19th. The SBWMA, a Joint Powers Authority composed of 10 peninsula cities, unincorporated portions of San Mateo County and a sanitary district, owns the Shoreway facility and is operated by Allied Waste of San Mateo County on the SBWMA's behalf.

The rate adjustments were approved to help offset Allied Waste's increasing labor costs, fuel costs and other operating expenses. Also, these rate increases are needed to help pay for traffic and facility improvements as part of a long range facility master plan now under construction.

Facility Improvements

Construction is currently underway to transform the existing facility into the Shoreway Environmental Center, California's greenest recycling center and transfer station. This includes building a new recycling processing center, expanding the existing transfer station, and making significant improvements to traffic flow, scale access, customer safety and convenience. Please visit our website at www.RethinkWaste.org for updates on our construction.

If you have any questions regarding these rate adjustments, please contact our offices at 650-802-3500. Thank you for your business.

Sincerely,

SOUTH BAYSIDE WASTE MANAGEMENT AUTHORITY

Kevin McCarthy
Executive Director

San Carlos Transfer Station

Rates Effective: January 1, 2010
